Junior Full Stack JAVA Developer
(suitable for graduate)

In Commerzbank Digital Technology Centre Prague, we are transforming a traditional bank into a digital agile enterprise! We provide a wide range of various IT solutions, .Net and Java development, services in the area of application operation and infrastructure.

We are looking for thinkers with unconventional ideas and in return, we offer the freedom to create own job with own vision, wide range of benefits including home office. Sounds interesting?
Shape the future of banking with us!

As part of our capital markets growth agenda, we are now recruiting outstanding technologists with strong Java skills into our credit trading area. Our Prague DTC will be home to a new team which will be responsible for our proprietary bond trading platform. The team's remit will be broad, incorporating technology selection, hardcore development and leading the way on smart usage of open source technologies and modern engineering practices.

Note: Dear candidates, we are currently doing interviews via e-tools (audio/video conferencing)

You will be responsible for:

- A desire to learn throughout your career
- A passion for writing elegant, performant code
- The ability to see through technology hype and thus identify real opportunities to bring value to your team
- Outstanding conceptual thinking with the ability to clearly articulate ideas in complex domains and to challenge the status quo
- High integrity coupled with tenacity
- A strong desire to continually improve and optimise software development processes
- University graduate (Information Technologies, Mathematics) with a certain working experience

You will work closely with the Product Owner for the eBond platform to:

- Create a robust high-performance bond trading platform
- Look for opportunities to share functionality with the rest of the organisation and clients via API's
- To understand the business needs and design potential solutions together with trading and financial engineering
- Minimize the support overhead for the platform
We prefer candidates with:

- Knowledge of core Java, JavaScript, React and implementations using low latency design approaches
- Software quality assurance, including Unit, Regression and SI, conducting test plans, analyses
- Agile Development Practices (TDD, BDD, Automated Builds, Continuous Integration) / Scrum Methodologies
- Good knowledge of software security concerns
- Ability to multi-task and work under pressure
- Excellent communication skills, able to work effectively with senior traders and other developers

We offer:

- A friendly, inclusive and open-minded company culture
- A competitive salary with a very decent annual bonus system
- A sophisticated program of further professional training and personal growth
- Home office, flexible working hours and an enjoyable relax corner where you can recharge your batteries
- Attractive fringe benefits incl. up to 30 days of vacation, paid sick leaves and sponsored public transport
- Modern offices in Karlovo náměstí, amazing multicultural colleagues and so much more!

If you find this a challenging opportunity, please contact us at interview@commerzbank.com
