.NET Developer
(mid.level)

In Commerzbank Digital Technology Centre Prague, we are transforming a traditional bank into a digital agile enterprise! We provide a wide range of various IT solutions, .Net and Java development, services in the area of application operation and infrastructure.

We are looking for thinkers with unconventional ideas and in return, we offer the freedom to create own job with own vision, wide range of benefits including home office. Sounds interesting? Shape the future of banking with us!

We are looking for an open-minded and proactive team player, who is passionate about communication and software development. You can participate in software design, development, and all technical aspects of a project's lifecycle. There is close cooperation with other developers and business colleagues on daily basis. Even though we are the big international company we offer friendly environment with the stability of the big corporate. Our mission is to create the workplace where people are looking forward to come in the morning.

You would work on an application for Independent price verification (IPV), in the IPV platform cell of Valuations / Market & Liquidity Risk cluster. You would be a part of a development team of roughly 15 people working in Prague, cooperating with the support colleagues in Prague and our Product Owner in Frankfurt(Germany). The development team is international, you would communicate in English on daily basis. Our business users (employees of Commerzbank) are located in Frankfurt, London and Prague and can speak English as well.

You will be responsible for:

- Design and implementation of web applications using ASP.NET MVC, Javascript/Typescript etc.
- Development of business logic on application server in .NET and scripting using 3rd party scheduler
- Data modeling and database programming
- Defect analysis and Code reviews

We are looking for candidates with these skills:

- Required:
  - Experience in C#.NET programming
  - Experience with ASP.NET MVC Framework
  - Knowledge of HTML, CSS, JavaScript, jQuery
  - Experience in SQL (preferably MS SQL)
  - Analytical skills
