IT Workplace Support (Students only)

In Commerzbank Digital Technology Center Prague, we are transforming a traditional bank into a digital agile enterprise!

We are looking for thinkers with unconventional ideas and in return, we offer the freedom to create our own job with our vision.

Our STUDENT POOL is based on cooperation with various teams in our IT center. We have teams as Application Support, Infrastructure, Development and many others.

You can start on one student position and then, after few months, you can rotate to a different team and try to learn new things. So you can be part of many teams until you will find the right match! We are open and willing to teach you as much as we can and as much as you want.

So let’s try something new, start to be part of various teams, learn new technologies and then we can agree on a full-time position. We are offering many junior positions and we are always happy if we can internalize our students as full-time employees.

Sounds interesting? Shape the future of banking with us!
