Terms and Conditions for Admission to study in all forms of the Doctoral Study Program Informatics for the academic year 2023/2024

Part I
Basic provisions

1. Preamble
1. This document (hereinafter “Terms and Conditions”) sets out the conditions for admission in the Doctoral Study Program Informatics (hereinafter “DSP”) Informatics – P0613D140001 and P0613D140002 – implemented at the Faculty of Information Technology of the Czech Technical University CTU in Prague (hereinafter “FIT CTU” or “Faculty”).

2. The admission of applicants into DSP Informatics is governed by:
   a. Act No. 111/1998 Coll., Higher Education Act, as amended,
   b. Act No. 500/2004 Coll., Administrative Code, as amended,
   c. and these Terms and Conditions.

2. Basic Information about the Doctoral Study Program
1. Program name: Informatics
2. Study program codes: P0613D140001 (DSP in Czech language)
   P0613D140002 (DSP in English language)
3. Forms of study: full-time and combined
4. Languages of instruction: Czech and English
5. Maximum number of students admitted to study:
   a. For the winter semester 2023/2024: 30 students
   b. For the summer semester 2023/2024: 30 students
6. Standard period of study: 4 years
7. Study level: doctorate (Ph.D. degree)
Part II
Terms and Conditions for Admission according to Par 49 (1) of Act No. 111/1998 Coll., Higher Education Act, as amended

3. Application for studies

1. A candidate is admitted to the admission procedure based on an application. The application is submitted simultaneously in two forms:

2. In cooperation with the supervisor, the candidate chooses a General dissertation thesis topic, as a rule by selecting from a list of general dissertation topics available in the public section of the FIT CTU website at https://fit.cvut.cz/en/applicants/programs-and-specializations/doctoral-study-program/topics-of-dissertation-theses. The proposed thesis topic as well as the proposed supervisor must be included in the application form.

3. The applicant shall attach all required documents to the completed and signed application form referred to in Par 1(a) above:
   a. Certified copies of the Master degree (diploma as well as supplements to the Master degree, if available).
      i. In the case the application is submitted in person, it is sufficient to submit the original and a copy, the conformity of which with the original will be verified by an officer of the Office of Science and Research.
      ii. If the applicant completed previous studies abroad, then a certificate of recognition of equivalence (nostrification) of the foreign Bachelor and/or Master degree must be submitted; the proof of nostrification does not apply to Hungary, Poland, Slovakia and Slovenia; this document can be replaced by a document issued by the CTU to recognize the applicant’s foreign education in the CTU admission procedure, in accordance with Par 48 (5)c and Par 6 of Act No. 111/1989 Coll., Higher Education Act, as amended. The detailed procedural procedure for the assessment of the applicant’s foreign education, including the amount of the fee for this assessment, is available in the public section of the CTU website at https://www.cvut.cz/en/assessment-of-education-for-applying-to-ctu.
iii. If the documents submitted are not in Czech, Slovak, English, French, German, Russian or Spanish, they must be accompanied by a certified translation into Czech, Slovak or English.

iv. If the applicant has not yet taken the required final examination for a given type of study or cannot provide the relevant data on its completion in the application form, she/he shall submit proof of its completion no later than 7 days before the date of enrolment in the study, which is determined by the timetable of the academic year of FIT CTU available in the public part of the website of FIT CTU at https://fit.cvut.cz/en/studies/information-service/schedule.

b. A professional CV, which should include all the activities relevant to the DSP Informatics (foreign study stays, participation in research and developmental projects, good results in student competitions, etc.).

c. List of publications and their citation (even if it is blank).

e. Copies of the achievements in the previous studies or professional practice (awards for the best article, evidence of placement in competitions, patents and/or other innovative results).

f. Proof of payment of the fee for the costs associated with the admission procedure (if not paid using the electronic payment gateway as per Art. 4).

4. The applicant shall deliver the application pertaining to Par 1(a) including all the above-specified documents either in person, or through a holder of a postal license to the FIT CTU on the following dates:

a. For applications for studies in the winter semester 2023/2024 no later than 12 May 2023.

b. For application for in the summer semester 2023/2024 no later than 15 December 2023.

By the same deadline, the applicant shall complete the online application form referred to in Art 1(b) above.
5. Address for delivery of the application pertaining the Art 1(a) is:

   Faculty of Information Technology, CTU in Prague
   Office of Science and Research
   Thákurova 2700/9
   160 00 Praha 6 – Dejvice

   Personal delivery of the application is possible by prior appointment by phone +420 224 359 813, or e-mail phd-admissions@fit.cvut.cz provided that the applicant is informed of the room where the application can be delivered in person.

4. Fee for the admission procedure

   1. The amount of the fee for the admission procedure is 850 CZK for the academic year 2023/2024.
   2. To pay the fee, online payment via an electronic payment gateway is preferred right after the online application form in accordance with Art 3(1)b at https://prihlaska.cvut.cz/.
   3. The fee can also be paid directly to the account FIT CTU held at Komerční banka Praha 6:
      ● Account number: 43-4999220217/0100
      ● Specific symbol: application code assigned in the electronic application
      ● Variable symbol: 77777
      ● Constant symbol: 968
      ● IBAN: CZ2301000000434999220217
      ● SWIFT code: KOMBCZPPXXX
      ● Payment from abroad: use the scheme OUR
   4. Unpaid application will not be included in the admission procedure, the fee must be paid by the deadline for the receipt of the application in accordance with Art 3(4).
   5. The fee for the admission procedure (or any overpayment) is non-refundable.

5. The admission procedure, verification of the fulfillment of the prerequisites for study and conditions for admission, and the entrance examination

   1. The admission procedure is initiated by the receipt of a written application for admission and the required attachments.
   2. The aim of the admission procedure is to determine the prerequisites for study in the DSP Informatics and independent creative activity and to determine the appropriate level of applicant’s professional knowledge. These prerequisites are determined by an entrance examination.
3. The entrance examination takes place on a date to be communicated to the applicant in writing (to the e-mail address given in the application form); the entrance examination will always take place at the following time:
   a. For applications for studies in the **winter semester 2023/2024**: the week of **12 to 16 June 2023**,  
   b. For applications for studies in the **summer semester 2023**: the week of **15 to 19 January 2024**.

4. The entrance examination is held before the Admission Committee.

5. The members of the Admission Committee for admission to the doctoral study program and its chairperson are appointed by the Dean on the proposal of the chairperson of the Board of the Doctoral Study Program (BDSP) **Informatics** after approval by the BDSP. The committee has at least 5 members, at least one of whom is not a CTU employee. The quorum of the Committee is reached with the participation of more than half of its members.

6. The proposed supervisor usually takes part in the entrance examination. The supervisor has the right to participate in the first part of the closed discussion of the Admission Committee and the express the right to veto the admission of the candidate of his/her topic. The supervisor shall not participate in the second part of the closed discussion of the Admission Committee and this part shall be concluded by a vote of the committee on the recommendation to admit the applicant to the study program. In the event of a tie vote, the vote of the chairperson of the Committee shall prevail.

7. The entrance examination is conducted as a personal interview before the Admission Committee. In the course of the interview, the Admission Committee shall assess whether
   - The applicant's previous education is sufficient in relation to the proposed dissertation topic,
   - The proposed topic (given by the Description of the General dissertation thesis topic) under the guidance of the proposed supervisor has a potential to be developed into a successful dissertation by the candidate and that the results of the dissertation shall be sufficiently covered in publications.
   - The applicant's level of English is at least at the level B2 according to the Common European Framework of Reference for Languages.

8. The Admission Committee shall prepare a report on the course of the entrance examination, which shall include:
   - The name of the study program,
   - The names of the members of the Admission Committee and the name of the chairperson,
The topic of the dissertation or the subject area of the dissertation,
The proposed supervisor,
The course of the entrance examination – questions and evaluation of the candidate’s answers,
An assessment of the candidate's level of English language proficiency,
The result of the entrance examination and the recommendation of the Admission Committee,
The date of the examination and the signatures of the members of the Admission Committee.

6. Admission to study

1. A candidate may be admitted to the study program if he/she fulfils the conditions for admission according to this document, the supervisor does not exercise the veto right according to Art 5(6) and all the following conditions at the same time:
   a. Graduation of a Master program in Informatics (or related field).
   b. A duly submitted application form and an electronic application within the deadline with all the required attachments in accordance with Art 3.
   c. Level of English proficiency at least at B2 level according to the Common European Framework of Reference for Languages, the level of the candidate's proficiency is verified during the entrance examination.
   d. Successful completion of the entrance examination in accordance with Art 5 with the result recommendation for admission to the study program from the Admission Committee.

2. Admission to the study program is decided by the Dean of the Faculty, based on the result of the entrance examination, taking into account the recommendation of the Admission Committee and the maximum number of students to be admitted to the study program.

7. Information on the result of the admission procedure

1. If the applicant indicates his/her agreement in his/her application, the decision on admission shall be sent to the applicant via the CTU information system electronically immediately. Other applicants will be sent the decision on admission in accordance with Act No. 500/2004 Coll., Administrative Code, as amended.

2. The decision on non-admission shall be sent to the applicants no later than the beginning of the relevant semester of the academic year 2023/2024, in accordance with Act No. 500/2004 Coll., Administrative Code, as amended.
8. Enrolment

1. A candidate who has been admitted to the study program shall has the right to enroll to the study program.

2. Enrollment shall take place on a date to be communicated to the candidate in writing (by e-mail to the address given in the application form), with enrollment taking place at the following time interval:
   a. For applications to study program in the winter semester 2023/2024: from 4 to 22 September 2023.
   b. For applications to study program in the summer semester 2023/2024: from 30 January to 16 February 2024.

Part III
Specific Terms and Conditions for admission of applicant-students of DSP Informatics P1801

9. Specific Terms and Conditions for admission of applicant-students of DSP Informatics P1801 implemented at FIT CTU accredited before 2018

1. In order to qualify for admission under this part of the Terms and Conditions, the applicant must be a student of the Doctoral Study Program Informatics at FIT accredited before 2018 (code P1801) during the admission procedure and must meet all the conditions for advancement to the next semester or to the higher year.

2. The applicant-student of the DSP Informatics P 1801 is included in the admission procedure if he/she submits the 'Application for Transfer Studies'; a form of which is available in the public part of the FIT CTU website at https://fit.cvut.cz/en/studies/programs-and-specializations/doctoral/dsp-informatics/for-current-students/forms. The application must be delivered to FIT CTU to the address specified in Art 3(5) no later than 60 days before the beginning of the semester from which the applicant-student of DSP Informatics P 1801 wishes to start his/her studies.

3. The Dean of FIT CTU evaluates the application and issues a decision and, if the applicant-student is accepted, the Dean determines, in accordance with Art 31 of the SEC CTU Study and Examination Regulations, which courses are recognized for the student.
10. Special admission deadline and reservation of changes

1. The Dean may announce an extraordinary admission deadline for other applicants interested in studying in the DSP Informatics. The announcement of the extraordinary admission deadline, including the admission conditions, shall be published in the public section of the Faculty’s website.

2. In case of external objective circumstances, the Faculty may change the Terms and Conditions provided that the Faculty is obliged to inform about the change in the public part of the Faculty’s website and by e-mail to applicants who have already submitted an application.

3. These Terms and Conditions replace in their entirety “Conditions for admission to the doctoral study program Informatics” approved by AS FIT 19 December 2019. The admission procedure to all forms of the Doctoral Study Program Informatics for the academic year 2022/2023 shall be completed according to the existing “Conditions for admission to the doctoral study program Informatics” approved by AS FIT on 19 December 2019.

doc. RNDr. Ing. Marcel Jiřina, Ph.D.

Prague, 5 January 2023
Dean, Faculty of Information Technology

Approved by Academic Senate of FIT, 5 January 2023
Ing. Tomáš Nováček
Chairperson, AS FIT
